

Teradata SQL

Version 15.10.6

Module 0 - Introduction

Recommended Prerequisite Knowledge	0-3
Course Objectives	0-4
Course Description.....	0-5
Course Content.....	0-6
Review of Relational Concepts.....	0-7
A Table with Rows and Columns	0-8
Teradata Object Naming Conventions	0-10

Module 1 - Teradata Studio Features

Optimize Effectiveness	1-3
Key Features	1-4
Modular Display	1-6
Teradata Studio Toolbar.....	1-8
Data Source Explorer View	1-10
Creating Connections	1-12
Creating Database Objects	1-14
Creating a SQL Statement (SQL Editor)	1-18
Project Explorer View.....	1-20
HELP TABLE Command	1-21
Other SQL HELP Commands.....	1-22
Setting a Default Database.....	1-24
The Teradata “SHOW” Command.....	1-26
Other SQL SHOW Commands	1-27
Session Information via SELECT	1-28
Session Information via HELP SESSION	1-29
SQL Editor	1-30
SQL Editor with Outline View	1-32
Using SQL Query Builder.....	1-33
Result Set Viewer.....	1-34
SQL History View	1-35
Teradata View	1-36
Shortcuts to Data Source Objects.....	1-37
Shortcuts to Typing Object Names	1-38
Commenting Lines of SQL	1-39

Logging on to Multiple Systems.....	1-40
Teradata Load Wizard	1-41
Choosing Studio or Studio Express	1-42
The Employee_Sales Database.....	1-44
The Emp_Views Database.....	1-45
Module 1: Summary	1-46
Module 1: Review Questions.....	1-47
Module 1: Lab Exercises	1-48

Module 2 - Basic SELECT Clauses

SQL: Structured Query Language	2-3
Three SQL Classifications.....	2-4
A Simple SQL SELECT	2-6
Projecting All Columns and All Rows	2-8
Aliasing a Column Using AS	2-9
Aliasing Mistake?	2-10
Ordering Rows Using ORDER BY	2-11
Other Ordering Options	2-12
Projecting Literal Values	2-14
Using WHERE to Eliminate Rows.....	2-15
The ASCII Collating Sequence and Teradata Mode	2-16
The ASCII Collating Sequence and ANSI Mode	2-18
Basic Logical Operators	2-19
DISTINCT Option.....	2-20
Other Built-In Functions.....	2-21
Recommended Coding Conventions	2-22
Module 2: Summary	2-23
Module 2: Review Questions.....	2-24
Module 2: Lab Exercises	2-26

Module 3 - Logical Operators

Logical Operators Introduction.....	3-3
The “AND” Condition.....	3-4
The “OR” Condition	3-5
Mixing AND and OR.....	3-6
Parentheses and the Predicate	3-7
The IN Operator.....	3-8
The NOT IN Operator	3-10
Exclusive OR	3-12
The BETWEEN Operator	3-13
NULL.....	3-14
Conditional Expressions and NULL.....	3-16
What Gets Returned.....	3-17
NULL and the Business Question	3-18

NOT NULL and the Business Question.....	3-19
Negating Conditions and Operators.....	3-20
The IN Operator and NULL.....	3-21
The NOT IN Operator and NULL.....	3-22
“<>” With OR vs. “<>” With AND.....	3-23
NULL Literal in an IN-List.....	3-24
Including NULL to an IN-List.....	3-25
NULL Literal in a NOT IN-List.....	3-26
Three Versions of NOT IN.....	3-27
Incorrect Sequencing of the BETWEEN.....	3-28
Explaining the Incorrect Sequencing of BETWEEN.....	3-29
Unsatisfiable BETWEEN with AND Residual.....	3-30
Unsatisfiable BETWEEN with OR Residual.....	3-31
Precedence of Operators.....	3-32
Module 3: Summary.....	3-33
Module 3: Review Questions.....	3-34
Module 3: Lab Exercises.....	3-36

Module 4 - Data Types and Functionality

Data Types.....	4-4
Character Data Types.....	4-6
Character Functionality.....	4-7
BETWEEN Functionality with CHARACTER.....	4-8
Integer Data Types.....	4-10
Decimal Data Types.....	4-11
Float Data Type.....	4-12
Byte Data Types.....	4-13
Date Data Type.....	4-14
ARRAY Data Type.....	4-16
NUMBER Data Type.....	4-18
More Data Types.....	4-20
Arithmetic Operators.....	4-21
Arithmetic and Derived Values.....	4-22
Arithmetic Functions.....	4-23
DATE Arithmetic.....	4-24
Data Type Conversions Using CAST.....	4-26
Data Type Conversions and Rounding.....	4-28
Concatenating Data Types.....	4-30
Concatenated Example Results.....	4-31
FORMAT.....	4-32
Methods for FORMAT in ODBC and JDBC Tools.....	4-33
ODBC/JDBC Formatting Examples.....	4-34
FORMAT Exercise.....	4-35
Year, Month, and Day Formatting Options.....	4-36
Sequencing by Date Portions.....	4-37
Module 4: Summary.....	4-38

Module 4: Review Questions.....	4-39
Module 4: Lab Exercises	4-41

Module 5 - Basic SQL Functions

What are Functions?	5-3
UPPER & LOWER.....	5-4
UPPER & LOWER for Case Sensitivity	5-6
CHARACTER_LENGTH	5-8
TRIM	5-10
Trimming Other Than Space	5-11
Trimming Numbers	5-12
POSITION	5-13
Other Examples Using POSITION.....	5-14
SUBSTRING	5-15
SUBSTRING and Numbers.....	5-16
LIKE	5-17
LIKE Examples Using “%”	5-18
LIKE Examples Using “_”	5-20
LIKE and ESCAPE.....	5-21
LIKE (ANY – SOME – ALL).....	5-22
NOT LIKE ANY	5-23
NOT LIKE ALL	5-24
CASESPECIFIC	5-25
EXTRACT.....	5-26
ADD_MONTHS.....	5-27
TYPE	5-28
DEFAULT	5-29
The Calendars	5-30
Calendar Differences	5-32
Additional Calendar Functions	5-34
Calendar Functions Example.....	5-36
Module 5: Summary	5-37
Module 5: Review Questions.....	5-38
Module 5: Lab Exercises	5-40

Module 6 - Subqueries

The Subquery.....	6-3
Basic Subquery Concepts	6-4
Relating Concepts and Subqueries	6-5
Adding Conditions.....	6-6
Nesting Subqueries	6-7
Multiple Column Matching	6-8
NOT EXISTS.....	6-10
EXISTS.....	6-11

NULL and NOT IN Subquery.....	6-12
Module 6: Summary.....	6-13
Module 6: Review Questions.....	6-14
Module 6: Lab Exercises.....	6-16

Module 7 - Inner Join

Inner Join Concepts.....	7-3
Inner Join vs. Subquery.....	7-4
Comparing Subqueries and Inner Joins	7-5
Table Name Qualifications and Aliasing.....	7-6
Varied Forms of INNER Join	7-7
Many-Table INNER Joins.....	7-8
Varied Forms of Many-Table Inner Joins.....	7-10
Using Parentheses to Understand Order	7-12
Using Parentheses with Other Forms.....	7-13
Self Joins	7-14
Guaranteeing Uniqueness.....	7-16
IN vs. Inner Join.....	7-17
NOT IN vs. Inner Join.....	7-18
Cross Join.....	7-20
Mistakes on Table Aliasing.....	7-22
Mistakes on Column Aliasing.....	7-23
Module 7: Summary.....	7-24
Module 7: Review Questions.....	7-25
Module 7: Lab Exercises.....	7-27

Module 8 - Set Operators

What are Set Operators?.....	8-3
The Three Set Operators	8-4
UNION.....	8-6
UNION ALL	8-8
INTERSECT	8-9
EXCEPT (MINUS)	8-10
EXCEPT and ALL	8-11
Module 8: Summary.....	8-12
Module 8: Review Questions.....	8-13
Module 8: Lab Exercises.....	8-15

Module 9 - Outer Join

What is an Outer Join?.....	9-3
Outer Join Concepts.....	9-4
Simulating an Outer Join	9-5
Outer Join Syntax	9-6
Types of Outer Joins	9-8
Employee as Left Outer	9-9
Nulls and the Inner Table	9-10
Department as Outer	9-11
Outer Joins and WHERE.....	9-12
Syntax Variations.....	9-13
Parts of Speech	9-14
Three Table Inner Join – Review.....	9-15
Three Table Outer Join	9-16
Multiple Table Variations.....	9-17
Three Table Outer Join Results	9-18
A Typical Outer Join?.....	9-19
Considering Nulls	9-20
Full Outer Join	9-21
Module 9: Summary	9-22
Module 9: Review Questions.....	9-23
Module 9: Lab Exercises	9-25

Module 10 - Aggregation

The Aggregate Functions.....	10-3
Aggregate Functionality	10-4
COUNT(*).....	10-5
Getting Department Sums.....	10-6
Aggregating Groups.....	10-8
Adding Grouping Columns.....	10-10
The HAVING Clause	10-12
WHERE Clause Explain.....	10-14
HAVING on Non-Aggregates	10-15
Aggregation and Joins	10-16
COUNT DISTINCT	10-18
Some Other Variations	10-19
Module 10: Summary	10-20
Module 10: Review Questions.....	10-21
Module 10: Lab Exercises	10-23

Module 11 - CASE

CASE Overview.....	11-3
Valued Form (Projection List).....	11-4
Valued Form (Predicate).....	11-5
Valued Form and Null.....	11-6
Searched Form.....	11-7
Searched Form (Complex Example).....	11-8
CASE and Aggregation.....	11-10
NULLIF Function.....	11-11
NULLIF for Division.....	11-12
COALESCE Function.....	11-13
COALESCE and Multiple Arguments.....	11-14
NULLIF and COALESCE Aggregation Quiz.....	11-15
Module 11: Summary.....	11-16
Module 11: Review Questions.....	11-17
Module 11: Lab Exercises.....	11-19

Module 12 - Permanent and Derived Tables

Data Definition Language.....	12-3
Table Level Options.....	12-4
Set vs. Multiset.....	12-6
Column Level Options.....	12-8
Index Level Options.....	12-10
Creating and Dropping Secondary Indexes.....	12-12
Help Index.....	12-13
Deleting vs. Dropping Tables.....	12-14
Using Real Tables – “Temporarily”.....	12-15
“Derived” Tables.....	12-16
Forms of Derived Tables.....	12-17
Complex Derived Table Join.....	12-18
Including the NULL Department.....	12-20
Module 12: Summary.....	12-22
Module 12: Review Questions.....	12-23
Module 12: Lab Exercises.....	12-25

Module 13 - UPDATE-INSERT-DELETE

Updating Data via SQL.....	13-3
Inserting a Single Row.....	13-4
Inserting an Apostrophe.....	13-5
Inserting Default Values.....	13-6
Default Values and NOT NULL.....	13-7
Insert-Select.....	13-8
CASESPECIFIC and SET Tables.....	13-9

CASESPECIFIC and MULTISET Tables.....	13-10
UPDATE.....	13-11
Updating with Joins.....	13-12
UPDATE and FROM.....	13-13
DELETE.....	13-14
Deleting with Joins.....	13-15
Module 13: Summary.....	13-16
Module 13: Review Questions.....	13-17
Module 13: Lab Exercises.....	13-19

Module 14 - SAMPLE and RANDOM

SAMPLE Introduction.....	14-3
SAMPLE Syntax.....	14-4
Multiple Samples (Number of Rows).....	14-5
Multiple Samples (Percentage of Rows).....	14-6
SAMPLE WITH REPLACEMENT.....	14-7
WITH REPLACEMENT (Multiple Samples).....	14-8
Other Considerations.....	14-10
Significance of the Order of Operations.....	14-12
Using Derived Tables.....	14-13
SAMPLE and Subqueries.....	14-14
SAMPLE and Joins.....	14-15
Stratified Sampling – What is it?.....	14-16
Stratified Sampling (No Replacement).....	14-17
Stratified Sampling (With Replacement).....	14-18
Stratified Sampling and Joins.....	14-19
RANDOMIZED ALLOCATION.....	14-20
The RANDOM Function.....	14-22
Duplicate Random Values.....	14-24
RANDOM for Test Data.....	14-25
RANDOM and Limitations.....	14-26
Module 14: Summary.....	14-27
Module 14: Review Questions.....	14-28
Module 14: Lab Exercises.....	14-30

Module 15 - TOP N

TOP N Defined.....	15-3
TOP N Limitations.....	15-4
TOP N Example.....	15-6
TOP N WITH TIES.....	15-8
Without Ties – Same Result.....	15-9
WITH TIES – Same Result.....	15-10
Getting Bottom Results.....	15-11
Bottom Results – WITH TIES.....	15-12

WITH TIES – Adding a Bottom Tie.....	15-13
Unordered Rows	15-14
Unordered Rows and WITH TIES.....	15-15
TOP N and Randomness	15-16
The PERCENT Option.....	15-17
PERCENT Option – WITH TIES	15-18
PERCENT Option – No ORDER BY	15-19
PERCENT Option and Millions of Rows	15-20
Module 15: Summary.....	15-21
Module 15: Review Questions	15-22
Module 15: Lab Exercises.....	15-24

Module 16 - Views

What is a View?	16-3
Creating and Using Views	16-4
Replacing a View	16-6
Using Views to Rename Columns	16-8
Join View	16-9
Join Necessity?.....	16-10
Joining Views.....	16-11
Create View Strategies.....	16-12
Using Views for Formatting	16-13
Views with Aggregates	16-14
Aggregates and HAVING.....	16-15
Views and TOP N	16-16
Updating with Views	16-17
Views WITH CHECK OPTION.....	16-18
Restrictions on Views	16-19
Advantages and Suggestions.....	16-20
Module 16: Review Questions	16-21
Module 16: Lab Exercises.....	16-23

Module 17 - Macros

What is a Macro?	17-3
CREATE, EXECUTE, DROP Macro.....	17-4
Replacing a Macro	17-6
Multiple Statement Macros.....	17-8
Macros vs. Multi-Statement Requests	17-9
Simple Parameterized Macros.....	17-10
A More Complex Macro	17-11
EXECUTE Form – 1	17-12
EXEC – Form 2.....	17-13
DDL and Macros.....	17-14
Parameterizing an In-List.....	17-15

Parameterizing an In-List – Choice 2	17-16
Module 17: Summary	17-17
Module 17: Review Questions.....	17-18
Module 17: Lab Exercises	17-20

Module 18 - Course Survey

http://www.tensupport.com/surveys/	18-2
---	------

- Appendix A: Review Question Solutions
- Appendix B: Lab Exercise Solutions
- Appendix C: WITH and WITH BY
- Appendix D: Teradata Reserved Words
- Appendix E: Domain Specific Functions
- Appendix F: SQL Assistant
