

Teradata Advanced SQL Features Overview

Version 16.00.0

Module 0 - Course Introduction

Recommended Prerequisite Knowledge	0-3
Course Objectives	0-4
Course Modules	0-5

Module 1 - Teradata Studio Features

Optimize Effectiveness	1-3
Key Features	1-4
Modular Display	1-6
Teradata Studio Toolbar.....	1-8
Data Source Explorer View	1-10
Creating Connections.....	1-12
Creating Database Objects.....	1-14
Creating a SQL Statement (SQL Editor)	1-18
Project Explorer View.....	1-20
HELP TABLE Command	1-21
Other SQL HELP Commands.....	1-22
Setting a Default Database.....	1-24
The Teradata “SHOW” Command.....	1-26
Other SQL SHOW Commands	1-27
Session Information via SELECT.....	1-28
Session Information via HELP SESSION	1-29
SQL Editor	1-30
SQL Editor with Outline View	1-32
Using SQL Query Builder.....	1-33
Result Set Viewer.....	1-34
SQL History View	1-35
Teradata View	1-36
Shortcuts to Data Source Objects.....	1-37
Shortcuts to Typing Object Names	1-38
Commenting Lines of SQL	1-39
Logging on to Multiple Systems.....	1-40
Teradata Load Wizard.....	1-41
Choosing Studio or Studio Express	1-42
The Employee_Sales Database	1-44
The Emp_Views Database	1-45

Teradata Studio – New System.....	1-46
Module 1: Summary	1-47
Module 1: Review Questions.....	1-48
Module 1: Lab Exercises	1-49

Module 2 - Basic Teradata Functionality

Ordering Options	2-4
The ASCII Collating Sequence and Teradata Mode	2-6
The ASCII Collating Sequence and ANSI Mode	2-8
Basic Logical Operators	2-9
DISTINCT Option.....	2-10
Logical Operators	2-11
The IN Operator.....	2-12
The NOT IN Operator	2-14
The BETWEEN Operator.....	2-16
NOT NULL and the Business Question	2-17
Negating Conditions and Operators.....	2-18
NULL Literal in an IN-List	2-19
NULL Literal in a NOT IN-List	2-20
Module 2: Summary	2-21
Module 2: Review Questions.....	2-22
Module 2: Lab Exercises	2-24

Module 3 - Data Types and Functionality

Data Types	3-4
Character Data Types	3-6
Character Functionality	3-7
BETWEEN Functionality with CHARACTER.....	3-8
Integer Data Types.....	3-10
Decimal Data Types	3-11
Float Data Type	3-12
Byte Data Types	3-13
Date Data Type.....	3-14
ARRAY Data Type.....	3-16
NUMBER Data Type	3-18
More Data Types	3-20
Arithmetic Operators	3-21
Arithmetic and Derived Values	3-22
Arithmetic Functions	3-23
DATE Arithmetic	3-24
Data Type Conversions Using CAST.....	3-26
Data Type Conversions and Rounding.....	3-28
Concatenated Example Results.....	3-30
FORMAT.....	3-31

Methods for FORMAT in ODBC and JDBC Tools.....	3-32
Year, Month, and Day Formatting Options	3-33
User Defined Types (UDT).....	3-34
UDT Transforms	3-36
Module 3: Summary.....	3-39
Module 3: Review Questions.....	3-40
Module 3: Lab Exercises.....	3-42

Module 4 - Basic SQL Functions

UPPER & LOWER.....	4-3
CHARACTER_LENGTH	4-4
TRIM.....	4-5
Trimming Other Than Space.....	4-6
POSITION	4-7
SUBSTRING	4-8
SUBSTRING and Numbers	4-9
LIKE.....	4-10
LIKE Examples Using “_”.....	4-11
LIKE and ESCAPE	4-12
CASESPECIFIC	4-13
EXTRACT	4-14
ADD_MONTHS	4-15
DEFAULT	4-16
The Calendars.....	4-17
Calendar Differences.....	4-18
Additional Calendar Functions	4-20
Calendar Functions Example	4-22
PIVOT	4-23
PIVOT Example.....	4-24
PIVOT Column Names	4-26
UNPIVOT	4-27
UNPIVOT Example.....	4-28
Module 4: Summary.....	4-30
Module 4: Review Questions.....	4-31
Module 4: Lab Exercises.....	4-33

Module 5 - Multiple Table Accesses

The Subquery	5-3
Varied Forms of Inner Join	5-4
Using Parentheses to Understand Order	5-5
Using Parentheses with Other Forms	5-6
Cross Join.....	5-8
Mistakes on Table Aliasing.....	5-10
Mistakes on Column Aliasing.....	5-11

Left Outer Join.....	5-12
Right Outer Join.....	5-13
Full Outer Join.....	5-14
Three Table Outer Join.....	5-15
Correlated Subquery Processing.....	5-16
Correlated Subqueries and Aggregation.....	5-17
NOT IN vs. NOT EXISTS.....	5-18
Module 5: Summary.....	5-19
Module 5: Review Questions.....	5-20
Module 5: Lab Exercises.....	5-21

Module 6 - Permanent and Derived Tables

Data Definition Language.....	6-3
Table Level Options.....	6-4
Set vs. Multiset.....	6-6
CREATE TABLE.....	6-8
Column Level Options.....	6-10
Index Level Options.....	6-12
Creating and Dropping Secondary Indexes.....	6-14
Help Index.....	6-15
“Derived” Tables.....	6-16
“WITH” Form of a Derived Table.....	6-17
Module 6: Summary.....	6-18
Module 6: Review Questions.....	6-19
Module 6: Lab Exercises.....	6-21

Module 7 - Macros

What is a Macro?.....	7-3
CREATE, EXECUTE, DROP Macro.....	7-4
Replacing a Macro.....	7-6
A More Complex Macro.....	7-8
EXECUTE – Form 1.....	7-9
EXECUTE – Form 2.....	7-10
DDL and Macros.....	7-11
Module 7: Summary.....	7-12
Module 7: Review Questions.....	7-13
Module 7: Lab Exercises.....	7-15

Module 8 - Creating Tables from Existing Tables

Create Table AS	8-3
Cloning Attributes	8-4
Changing Table Attributes	8-5
Using Subqueries to Customize Tables.....	8-6
Changing Column Attributes	8-7
Using Inner Joins in a Subquery	8-8
Using CAST	8-9
Adding Unique and Primary Key Constraints	8-10
Copying Statistics	8-12
Module 8: Summary.....	8-14
Module 8: Review Questions.....	8-15
Module 8: Lab Exercises.....	8-16

Module 9 - SAMPLE and RANDOM

SAMPLE Introduction	9-3
SAMPLE Syntax.....	9-4
Multiple Samples (Number of Rows)	9-5
Multiple Samples (Percentage of Rows).....	9-6
SAMPLE WITH REPLACEMENT	9-7
Other Considerations.....	9-8
Using Derived Tables.....	9-10
Stratified Sampling (No Replacement)	9-11
Stratified Sampling (With Replacement).....	9-12
RANDOMIZED ALLOCATION	9-13
The RANDOM Function	9-14
RANDOM and Limitations.....	9-16
Module 9: Summary.....	9-17
Module 9: Review Questions.....	9-18
Module 9: Lab Exercises.....	9-20

Module 10 - TOP N

TOP N Defined	10-3
TOP N Limitations.....	10-4
TOP N Example	10-6
TOP N WITH TIES	10-8
Without Ties – Same Result.....	10-9
Getting Bottom Results	10-10
Unordered Rows	10-11
The PERCENT Option.....	10-12
PERCENT Option – WITH TIES	10-13
PERCENT Option – No ORDER BY	10-14
Module 10: Summary.....	10-15

Module 10: Review Questions.....	10-16
Module 10: Lab Exercises	10-18

Module 11 - Window Aggregates - Part 1

Window Aggregate Functions	11-4
The GROUP COUNT Window	11-6
Relating the Result to the Syntax.....	11-7
GROUP COUNT and Null	11-8
Group SUM and AVG Window	11-9
Group AVG and QUALIFY	11-10
GROUP COUNT and PARTITION	11-11
GROUP COUNT and Null Partitions.....	11-12
GROUP SUM and Reordering	11-13
ORDER BY Placement.....	11-14
Partitioning on Literals	11-15
WHERE vs. QUALIFY	11-16
Projecting Multiple Window Aggregates	11-17
Module 11: Summary	11-18
Module 11: Review Questions.....	11-19
Module 11: Lab Exercises	11-20

Module 12 - Window Aggregates - Part 2

What's ANSI Standard and What's Not?	12-4
Cumulative Sum	12-6
Cumulative Sum with Partitioning	12-8
Moving Sum	12-9
Moving AVG – Not in Range.....	12-10
Moving Difference.....	12-11
Remaining Window	12-12
Moving Window and Following.....	12-13
RESET WHEN	12-14
PRECEDING vs. FOLLOWING.....	12-16
Module 12: Summary	12-17
Module 12: Review Questions.....	12-18
Module 12: Lab Exercises	12-19

Module 13 - RANK

Ranking Values	13-3
QUALIFY With Tied Ending Values	13-4
Qualifying Without Rank Projection	13-5
Bottom Values by DESC Rank	13-6
RANK and PARTITION.....	13-8
Group Sum on Partitioned Rank	13-9
ROW_NUMBER	13-10
ROW_NUMBER and RESET WHEN	13-12
TD14.10 RANK Functionality	13-14
RANK Examples.....	13-15
PERCENT_RANK.....	13-16
TD14.10 PERCENTILE_CONT.....	13-17
TD14.10 PERCENTILE_DISC	13-18
TD14.10 MEDIAN	13-19
TD14.10 CUME_DIST	13-20
TD14.10 CUME_DIST Result.....	13-21
TD14.10 FIRST_VALUE and LAST_VALUE.....	13-22
FIRST_VALUE and RESPECT NULLS	13-23
RESPECT NULLS vs. IGNORE NULLS	13-24
Module 13: Summary.....	13-25
Module 13: Review Questions.....	13-26
Module 13: Lab Exercises.....	13-27

Module 14 - QUANTILE and WIDTH_BUCKET

QUANTILE Overview.....	14-4
QUANTILE and QUALIFY	14-6
QUANTILE with no Projected Value.....	14-7
Aggregation and QUANTILE.....	14-8
OLAP vs. Window Aggregates.....	14-9
QUANTILE and GROUP BY.....	14-10
Varying a QUANTILE.....	14-11
Ordering a QUANTILE	14-12
PERCENT_RANK vs. Percentile	14-13
WIDTH_BUCKET	14-14
Module 14: Summary.....	14-15
Module 14: Review Questions.....	14-16
Module 14: Lab Exercises.....	14-17

Module 15 - Extended Grouping Functions

Extended Grouping Functions Overview	15-3
ROLLUP	15-4
Two-Level Rollup	15-6
Null Group vs. Total	15-8
The GROUPING Function	15-9
CUBE Result	15-10
CUBE and GROUPING Function	15-12
Three-Level Cube	15-13
Aggregating Outside a Rollup	15-14
The GROUPING SETS Function	15-15
Adding Grand Totals	15-16
Combining Grouping Sets	15-17
Different Method for Same Result	15-18
The Multiplier Effect	15-19
Multiple Grouping Sets	15-20
Module 15: Summary	15-21
Module 15: Review Questions	15-22
Module 15: Lab Exercises	15-23

Module 16 - Recursive Queries

Recursive Query Description	16-3
Recursive Query Logic	16-4
Recursive Query Example	16-5
Analyzing the Depth	16-6
Two-City Recursion	16-7
Fixing a Two-City Chain Recursion	16-8
Greater Than Two-City Recursion	16-9
Fixing a Greater Than Two-City Recursion	16-10
Creating Recursive Views	16-12
Recursive Queries and Parameterized Macros	16-14
WITH Derived Table Usage	16-15
Non-Recursive WITH	16-16
Cross Referencing Multiple WITH Lists	16-18
Limitations and Restrictions	16-20
Module 16: Summary	16-21
Module 16: Review Questions	16-22
Module 16: Lab Exercises	16-23

Module 17 - Additional SQL Functions

Module Description.....	17-4
LAST_DAY.....	17-6
NEXT_DAY.....	17-8
TRUNC.....	17-10
Using TRUNC with Dates.....	17-12
ROUND.....	17-14
LTRIM.....	17-16
RTRIM.....	17-17
LPAD.....	17-18
RPAD.....	17-19
NGRAM.....	17-20
NGRAM Examples.....	17-22
NVP.....	17-24
NVP Examples.....	17-25
OREPLACE.....	17-26
OREPLACE Example.....	17-28
INITCAP.....	17-29
INSTR.....	17-30
NVL.....	17-32
CEILING and FLOOR.....	17-34
DECODE.....	17-36
GREATEST.....	17-38
LEAST.....	17-40
TO_NUMBER.....	17-42
TO_NUMBER Examples.....	17-44
TO_CHAR.....	17-46
TO_DATE.....	17-48
TO_TIMESTAMP.....	17-50
TO_TIMESTAMP Examples.....	17-51
Module 17: Summary.....	17-52
Module 17: Review Questions.....	17-53
Module 17: Lab Exercises.....	17-54

Module 18 - Course Survey

http://www.tensupport.com/surveys/	18-2
---	------

- Appendix A: Review Question Solutions
- Appendix B: Lab Exercise Solutions
- Appendix C: SQL Assistant
